Deliberations

It was informed that:

- 1) the last date of bid submission is March 26th ,2024 from 9:00 A.M to 11:00 AM.
- 2) Structure design & material for carport will be Aluminum and for roof top G.I/Aluminum and the roof top structure should be ground mounted, However, to meet the required system size, the bidders can use semi elevated structure (Maximum height not more than 5 ft) and tilt angle should be optimum for maximum energy production.
- 3) Payment to the successful bidder against the defined payment terms will be made directly in its bank account by the donor though a triparty MoU (Memorandum of Understanding)
- 4) IBA will pay to the K-Electric/NEPRA directly through the challan, Service charges, load inspector & complete solar plant including existing 140kWp and Extended 125kWp load flow study all charges should be included in the scope of contractor.
- 5) If there is any upgradation required in Main breaker or Copper links for Solar termination, the cost of upgradation work shall be included in the financial proposal.
- 6) Working hours in Ramadan at IBA is 08:00 A.M to 3:00 P.M from Monday to Friday, in case any bidder needs to do site visit in holidays before submission deadline, the bidder must inform in advance via email at following emails:
nmalik@iba.edu.pk
hilyas@iba.edu.pk
- 7) All the DB's (AC & DC) should be outdoor rated.
- 8) Inverter will be mounted outside; therefore, the cost of Shed shall be included in the financial proposal.
- 9) Safe removal and shifting of hollow blocks from Block 01 & Block 02 roof shall be in the scope of bidder.
- 10) The contractor shall provide the complete technical details including (Design, Specifications, Datasheets etc.)
