

1500va/900watts with Built-in battery

- Microprocessor-based digital control
- Boost and buck AVR for voltage stabilization
- Frequency adaptive
- Humanized alarm system
- Automatically diagnose when starts
- Cold start
- Auto restart while AC is recovering
- Simulated sine wave output
- Intelligent battery management
- Surge Protection overload and overvoltage
- Automatically charging the battery at UPS off mode
- Shutdown when no load connected at battery mode
- With management software for Windows included

Backup:-

25 Minutes backup on Full Load

Warranty:-

One Year Exclusive Onsite Warranty With batteries
