1. Introduction

Dear Tenderer

Thank you for your interest in responding to the IBA's advertisement which floated on IBA and SSPRA websites on May 8, 2025 "Provide and Supply Attack Surface Risk Management Solution".

The Institute of Business Administration, Karachi (IBA) is the oldest business school outside North America. It was established in 1955 with initial technical support provided by the Wharton School of Finance, University of Pennsylvania. Later, the University of Southern California (USC) set up various facilities at the IBA and several prominent American professors were assigned to the IBA. The course contents, the curriculum, the pedagogical tools and the assessment and testing methods were developed under the guidance of reputed scholars from these two institutions. IBA has zealously guarded the high standards and academic traditions it had inherited from Wharton and USC while adapting and adjusting them over time.

We expect to avail services/works/items of high standards that meet our prime and basic specifications through this transaction.

Please contact Senior Executive Procurement on 38104700 ext: 2152 for any information and query.

Thank you.

-sd-

Registrar

2. Instructions

(a) **Sign and Stamp**

It is necessary to fill in the Tender Form meticulously and sign and stamp every page. Moreover, attach the required supporting documentation according to the requirement. The tender document will be accepted ONLY on the IBA's prescribed Tender Document available on the IBA's Website.

(b) **Filling in the Tender Form**

It is mandatory to fill the Tender Form in writing in ink or type. Do not leave any column/item blank. If you want to leave the item/column unanswered please, write 'Doesn't Apply/Doesn't Arise'. If you need more space, please attach a paper and clearly mention the item/column name or number etc. that referred to the column/item of the Tender Form.

(c) **Collection of Tender**

Tender documents can be downloaded from the IBA and SPPRA EPADS websites. The tender fee challan to be generated from the IBA website at <https://tenders.iba.edu.pk> and deposited at any branch of Meezan Bank Ltd.

(d) **Tender Number**

Please mention "Tender Number" at the top left corner of the envelopes. IBA, Karachi may reject any bid subject to the relevant provision of SPP Rules 2010 and may cancel the bidding process at any time before acceptance of the bid or proposal as per Rule-25(i) of said rules.

(e) **Communication**

Any request for clarification regarding technical specifications should be submitted in writing to:

Contact Person (IBA):	Senior Executive Procurement Institute of Business Administration, Main Campus, University Enclave, Karachi
Tel #:	021 38104700; Ext 2152
Email:	tenders@iba.edu.pk

Stamp and Signature

(f) Submission of Documents and Address

Tender Document/Bid (with a copy of Bid Security/Earnest Money and supporting documents) to be submitted on SPPRA EPADS <https://portalsindh.eprocure.gov.pk/> by May 23, 2025 till 3:00 PM. The original Bid Security along with the Original Bid (duly signed and stamped) be delivered to IBA, Karachi on above mentioned address before bid opening schedule.

(g) Rights

Competent authorities reserve the right to accept or reject any quotation/tender without any reason thereof. Also, the Authority reserves the right to change/alter/remove any item or article or reduce/enhance quantity without assigning any reason. IBA also reserves the right to issue a Purchase Order for any single item to different lowest responsive bidders or for all the items to any lowest responsive bidder.

(h) Point of Delivery

Supply will be delivered at the IBA City Campus, University Enclave Karachi. IBA is not liable to pay any Custom duty, Levies, Taxes, Demurrage or any other charges, Warehousing, Logistics etc.

(i) Clarification / Proof

Please submit copies of certificates of registration with the Sales Tax and Income Tax departments. The manufacturer/firms/companies/distributors/suppliers should also provide a copy(ies) of the certificate(s) etc. as proof of their claim.

(j) Conditional / Optional / Alternate Bids

Such bids will not be accepted.

Stamp and Signature

Stamp and Signature

5. Integrity Pact

- (a) Its intention is not to obtain the Provide and Supply work of any Contract, right, interest, privilege, or other obligation or benefit from the IBA or any administrative or financial offices thereof or any other department under the control of the IBA through any corrupt practice(s).
- (b) Without limiting the generality of the forgoing the Bidder represents and warrants that it has fully declared the charges, fees, commission, taxes, levies etc., paid or payable to anyone and not given or agreed to give and shall not give or agree to give to anyone within the IBA directly or indirectly through any means any commission, gratification, bribe, gifts, kickback whether described as consultation fee or otherwise, with the object of obtaining or including the Provide and Supply or service contract or order or other obligations whatsoever from the IBA, except that which has been expressly declared pursuant hereto.
- (c) The Bidder accepts full responsibility and strict liability for making any false declaration/statement, not making full disclosure, misrepresenting facts or taking any action likely to degrade the purpose of declaration, representation and warranty. It agrees that any contract/order obtained aforesaid shall without prejudice to any other right and remedies available to the IBA under any law, contract, or other instruments, stand void at the discretion of the IBA.
- (d) Notwithstanding any right and remedies exercised by the IBA in this regard, Bidder agrees to indemnify the IBA for any loss or damage incurred by it on account of its corrupt business practice and further pay compensation to the IBA in any amount equivalent to the loss of any commission, gratification, bribe, gifts, kickback given by the company/firm/supplier/agency/bidder as aforesaid for the purpose of obtaining or inducing Provide and Supply/work/service or other obligation or benefit in whatsoever from the IBA.

Note:

This integrity pact is a mandatory requirement other than auxiliary services/works.

Stamp and Signature

7. **Project Summary**

The Institute of Business Administration, Karachi (IBA) requires 'Provide & Supply Attack Surface Risk Management Solution' including:

- a) Complete protection, visibility, and control over our security infrastructure and safeguarding against cybercrime, ransomware, data breaches, and other advanced threats as per the details in Bill of Quantity.
- b) Technical support and upgrade.
- c) mentioned and necessary software with licenses and support.

8. **Required Technical Specifications**

The proposed solution must:

- be the leader in Forrester Attack Surface Management.
- integrate with existing Trend Micro XDR solution to get data for Risk assessment such as configuration risks etc.
- provide an organization-wide risk score based on continuous assessment of risks.
- provide insights into company's security posture through risk index, asset risks, ongoing attacks and all contributing risk factors.
- provide company's overall risk index through dynamic assessment of risk factors including exposure, attack risk and security configuration risk.
- provide risk overview of devices, Internet facing assets, accounts & cloud applications.
- provide exposure overview through identification of vulnerabilities, system configuration risk, user activity and behaviour risks.
- provide attack overview through the attack intensity of cyber threats occurring in the organization.
- provide security configuration index based on factors including agent and sensor deployment, key feature adoption, license health and agent versions.
- continuously identify, categorize and document all the assets within the organization's digital ecosystem. Assets should be listed and categorized but not limited to the following asset categories:
 - a) Internet-facing Assets
 - b) Internal device Assets
 - c) Account Assets
 - d) Application Assets
- provide contextual visibility into all assets by:
 - a) Criticality based on asset attribute and activity.
 - b) Graphical representation on relationship of assets
 - c) Historical risk assessment result
- integrate with third party vendors for ingest or enrich attack surface data.
- have built-in support for security playbooks to be used for automated remediation.

Stamp and Signature

As part of External Attack Surface Management, the proposed solution should:

- assess the security posture of Internet and other external facing assets in the organization, as part of External Attack Surface Management.
- list all domains and respective subdomains belonging to the organization.
- list all Public IP addresses belonging to the organization.
- provide the Internet-facing asset's latest risk score, host provider, services, ports and show when the asset was last seen.
- provide risk assessment for each domain and IP address asset and assign a risk score that can be monitored over time.
- show an asset graph for each domain and IP asset.
- provide an asset criticality score per domain and IP asset. Asset criticality indicates the importance of an asset in an organization. Administrators should be able to manually change asset criticality.
- summarize IP address asset's location per country and display on a map view.
- provide the ability to add company owned domains, subdomains and IP addresses for discovery.

For internal device assets, the proposed solution should:

- utilize multiple discovery data providers (reliance to existing agent should be supplemented by additional discovery providers).
- provide the internal device asset's latest risk score, OS, IP address, last user, vulnerabilities, discovery source and when the device was first and last seen.
- provide risk assessment for each device asset and assign a risk score that can be monitored over time (display risk indicators like what type of risks, events and risk level for each discovered risk).
- show an asset graph for each device asset. An asset graph graphically illustrates the asset's connection to other assets in the environment.
- provide an asset criticality score per device asset. Asset criticality indicates the importance of an asset in an organization. Administrators should be able to manually change asset criticality.
- identify managed and unmanaged devices.
- list all discovered internal device assets.
- show device asset's cloud application usage and activity.
- show device asset's use of sanctioned and unsanctioned cloud applications.
- provide a summary of a device asset by building an asset profile. Details should include basic device info (OS, device type, group membership, etc.), Activity, Device Usage, Connection information, Influence and Identity posture risk.
- perform Response Actions (for example: Isolate, Remote Shell, Run Custom Script).

Stamp and Signature

For account assets, the proposed solution should:

- utilize multiple discovery data providers (reliance to existing agent should be supplemented by additional discovery providers).
- identify both domain and service accounts.
- provide the account's latest risk score, user type, role, location, job title and when the account was first and last seen.
- provide risk assessment for both domain and service accounts and assign a risk score that can be monitored over time. Display risk indicators like what type of risks, events and risk level for each discovered risk.
- show an asset graph for both domain and service accounts. An asset graph graphically illustrates the asset's connection to other assets in the environment.
- provide an account criticality score for both domain and service account. Account's criticality indicates the importance of the account in an organization. Administrators should be able to manually change the account criticality rating.
- enumerate application roles granted to discovered service accounts.
- enumerate granted consent permissions to discovered service accounts.
- list all discovered accounts.
- show account's cloud application usage and activity.
- show account's use of sanctioned and unsanctioned cloud applications.
- show account's latest account risk score, user type, role, location, job title and when the account was first and last seen.
- provide a summary of an account by building an asset profile. Details should include basic account info (level, role, group membership, etc.), Activity, Device Usage, Email usage information, Influence and Identity posture risk.
- perform Response Actions (for example: disable account, enable account, force password reset).

For application assets, the proposed solution should:

- utilize multiple discovery data providers (Reliance to existing agent should be supplemented by additional discovery providers).
- identify both Cloud and Local Applications.
- allow a cloud application to be set as a sanctioned or an unsanctioned app.
- provide the application's latest risk level, category, which users are using the application, which devices the application were accessed, app usage, whether the application is sanctioned, and when the application was last seen.
- provide risk level for both cloud and local applications and assign a risk level for each (can be modified).
- show compliance information for cloud applications
- show cloud application usage by users.
- show cloud application usage by devices.

Stamp and Signature

- provide following vulnerability management metrics for both internal and Internet facing assets over time and be able to compare the organizations score to the global average:
 - a) Highly Exploitable unique CVEs.
 - b) Mean Time to Patch.
 - c) Average Unpatched Time
 - d) Vulnerable endpoints
- support automation/playbook actions for vulnerability detection events.
- Vulnerability Assessment and Prioritization should be based on both external factors (threat intel, e.g. whether a CVE is highly actively exploited) and internal factors (asset criticality, exploit attempts based on detection logs).
- provide zero-day vulnerability detection capability.
- provide remediation steps for all discovered risk factors.
- provide the ability to set a goal for risk reduction measures. Provide a way to lower the organization's risk level (for example: high risk to low risk) by offering a list of recommendations.
- keep track of discovered risks events by specifying remediation status for every discovered event. Events status should be able to be assigned per event (for example: Remediated, Dismissed etc.).
- provide reports that can be generated on demand or via schedule.
- allow generated reports to be sent via email.
- allow reports content to be filtered to narrow down output based on selected criteria.
- provide Real-time Monitoring and Continuous assessment periodic scans.
- provide Automation & Response with Automated risk mitigation workflows and identify the user and calculate his risk and identify the user and their password which are expose on dark web.
- Risk Prioritization & AI/ML Threat Intel Integration Zero-Day Initiative and Integration & Ecosystem EDR/XDR Cloud-Native Tools
- provide real-world exploit data (from ZDI) and predictive AI outperform generic CVSS-based with Executive Dashboards Business-risk focus.
- Licensing model must be asset and credit base.
- For Compliance and Reporting Propose solution must have Pre-built Compliance Templates NIST, ISO 27001, CIS.

 Stamp and Signature

9. Bidder Qualification Criteria

Sr. No.	Mandatory Eligibility Criteria	Remarks Yes / No	Required Supporting Documents
1.	Relevant experience of at least last three (03) years		One Relevant Purchase Order/Contract of each year
2.	Last 3 years' turnover with a minimum of 17 million (per year) on average		Annual Income Tax Return and Audited Financial Statement of last three years
3.	Active Income Taxpayer at the time of submission of the bid		NTN and STRN registration certificates
4.	Active Sales Taxpayer		Copy of Last month's Sales Tax return
5.	Manufacturer (OEM) or Authorized Partner/ Distributor/Reseller		Authorized Certificate

Note: Bidder must upload all the Supporting Documents on SPPRA EPADS for evaluation. Any missing documents may affect the bid evaluation.
