Item # 2: Approval for tender ad & documents for Chiller Condenser Coil

Discussion: Manager Maintenance inform the committee that they need to purchase two condenser unit as a possible replacement for Chiller at Administration Building, City Campus. The condenser had problem even in the initial period of the installation – there are some design problems with these kind of Condenser's. The estimated cost of the purchase in Rs.600,000. The make of the condenser is Chiller. There is basically one main principle supplier of the Carrier Chillers. The reason we are not going for Direct Contracting – as the principle supplier have quoted extra ordinary prices in the future. As a standard there is no warranty on maintenance parts. The committee suggested to ask for bid with and without warranty for one year.

Decision: The committee approved the tender ad & document of the Chiller Condenser to be floated SPPRA and IBA website.
